Dear Sir/Madam,

RE: 63 Carrie St
Thunder Bay Telephone is presently planning for the installation of new digital switching equipment in your area. This will, in turn, necessitate telephone number changes. Please be advised that this will be in effect June 30, 1987 and it will be listed in the new 1987 directory.

If your telephone number is currently non-published, no listing will appear in the telephone directory.

Present Telephone Number: 345-5552

New Telephone Number: 767-7661

A new number plate will be forwarded to you before the above effective date.

We have enclosed information on the custom calling features available in digital exchanges. Further information or rates for these features may be obtained by calling our business office at 623-4400.

We apologize for any inconvenience this number change may cause but we feel the benefits of enhanced features and services offered will improve your telephone service.

Yours truly,

A handwritten signature in dark ink, appearing to read "Richard Schutte", written over a horizontal line.

Richard Schutte
